

AUROVILLE INSTITUTE FOR INTEGRAL HEALTH

Santé, Auroville Institute for Integral Health

The basic vision of Santé, Auroville Institute for Integral Health is to offer a more comprehensive and effective healthcare system to the population of Auroville. To accomplish this mission, the team at Santé began adapting the currently emerging healthcare model of integrative medicine to fit the context and reality of Auroville.

Integrative medicine is based on the collaboration of multiple health disciplines working together to provide comprehensive patient healthcare, by combining strengths from various diagnostic and treatment models, thus effectively addressing areas where individual healthcare systems are limited or fall short. Integral health focuses on the prevention and treatment of ill-health by addressing a patient's unique needs and includes and insists on active patient participation. The integral model of health care offers affordable, minimally invasive, effective care using a far-reaching knowledge base.

In Santé, doctors work beside therapists to guide patients in their integral healing processes. Our team includes individuals specialising in:

- Allopathic general practice
- Acupuncture
- Classical homoeopathy
- Indian Ayurveda
- Life coaching
- Hypnosis and neurolinguistic programming (NLP)
- Integrative psychotherapy
- Midwifery and women's health
- Medical & therapeutic Shiatsu
- Meridian psychotherapy
- Medical massage
- Ozone therapy
- Physiotherapy.

And we cannot fail to mention our invaluable support staff of nurses, receptionists, admin support and maintenance staff, without whom this service could not manifest.

Santé's List of Other Clinical Services:
